BIBLIEX

The book cover features a detailed illustration of a satellite in orbit above the Earth. The satellite is shown with its solar panels and various instruments. From the satellite, several bright yellow-green beams of light or energy are directed towards the Earth's surface. The Earth is depicted with realistic clouds and landmasses. Overlaid on the Earth's surface are several concentric orange circles, resembling radar or signal waves, centered on various points. The background is a dark space filled with small, distant stars.
